

We represent you the Ukrainian manufacturer, specializes on the production of soft drinks, drinking and mineral waters and also low alcohol drinks.

We offer the following assortment of Soft drinks:

1. Zhivchik with Apple juice – contains min. 10% of natural juice.

Non-alcoholic carbonated drink with a pleasant apple taste. It is made of artesian water, concentrated apple juice and echinacea extract. Due to its ingredients, Zhivchik promotes strengthening of the immune system, higher working capacity, better mood, and has radiation protective action and a general tonic effect. Popular with both children and adults.

2. Zhivchik with Apple juice non carbonated.

Non-alcoholic drink with a pleasant apple taste. The content of apple juice is increased up to 10%. The absence of carbon dioxide makes this beverage even more wholesome and suitable for young children.

3. Zhivchik with Lemon flavour

Beverage with a pronounced lemon taste made from lemon juice, artesian water and enriched with beta carotene and vitamins E and C. Thanks to this, Zhivchik Lemon promotes normalization of immune system indicators, improves metabolism, mitigates the adverse effect of chemical and radioactive pollution and improves resistance to stresses.

4. Zhivchik with Pear flavour

Zhivchik Pear contains pear juice, artesian water, dog rose extract, and vitamin C. It relieves emotional stress, tones and improves the condition of the skin, strengthens the immune system, improves vision and removes radionuclides.

5. Zhivchik with Orange flavour

Non-alcoholic drink based on highly useful and natural ingredients. "Zhivchik with Orange flavour" contains natural orange juice and extract of sea buckthorn. These ingredients are the source of vitamins E and C, provitamin A and micronutrients that have strong antioxidant properties that contribute to the improvement of cardiosystem and rejuvenation of the whole organism. Due to the juice "Zhivchik Orange" enhances immunity and well quenches thirst. Sea buckthorn extract contains high amounts of carotenoids and tocopherols, which effectively protects the skin.
