

We offer you to consider a possibility of cooperation for producing and supplying of products of Ukrainian company.

The company produces:

Garbage trucks based on GAZ, ZIL, MAZ:

- **Garbage trucks** with side loading of solid household waste (SHW) from stationary containers, models: KO-431, KO-431, KO-429, KO-415A;
- **Garbage trucks** with rear loading of SHW from containers on wheels (eurocontainers), models: KO-436, KO-437, KO-437-01;
- **Containers on wheels (eurocontainers)**, model: KP-11 (КП-11), and stationery containers, model KC-0,75.

Garbage Truck TMBZ 3-02 (ТМБЗ 3-02) (KO-431-03) with side load on the chassis of MAZ-3481 N2 (MA3-4381 N2)

(loading from – stationary containers 0,75 m³ and containers on wheels 1,1 m³)

Technical specification

Description	Value for garbage truck on chassis MA3-4381N2 (MAZ-3481 N2) (MA3-4371)
	1. Truck's total weight, kg., not more than
2. Load capacity of chassis, kg	6970
3. Curb weight of chassis, kg	4940
4. Rated engine power, (HP)	170
5. Transmission type (drive type)	hydraulic
6. Waste loading system	mechanized
7. Curb weight of garbage truck, kg	7660
8. Weight of special equipment, kg	2740
9. Capacity of container (body), technological, m ³	13
10. Load capacity for solid household waste, kg	4340
11. Number of required staff, persons	2
12. Load capacity of the manipulator, kg, not more than	650

Price of the truck, CIF Abidjan / Dakar: 63 200 €

Garbage truck TMBZ 3-03 (ТМБЗ 3-03) with side load and universal manipulator

Garbage truck TMBZ 3-03 was developed for mechanized loading of solid household waste from stationary containers 0,75 m³ and euro containers 1,1 m³ into truck's container, their consolidation, transportation and mechanized unloading in special places of disposal and utilization.

Technical specification	
Description	Value
Model of garbage truck	ТМБЗ 3-03
Basis chassis	MA3-5340C2
Type of engine	ЯМЗ-53603 (EURO V)
Weight of chassis, kg	6920
Load capacity of chassis, kg	1350
Curb weight of garbage truck, kg, not more than	10880
Weight of special equipment, kg	3960
Load capacity for solid household waste, kg, not more than	8830
Truck's total weight, kg, not more than	20500
Transmission type (drive type)	hydraulic
Operating system	manual
Waste loading system	mechanized
Capacity of container (body), technological, m ³	18,5
Consolidation coefficient, up to	3,5
Load capacity of the manipulator, kg	650

Price of the truck, CIF Abidjan / Dakar: 68 600 €
